**Implementation of awareness
raising activities: Awareness
Raising Info Days**

Introduction to the CarePath Awareness Raising Info Days

The Awareness Raising Info Days are part of the CarePath project Work Package 5 (WP5), 'Dissemination and Sustainability'. This Work Package focused on the implementation of the project's dissemination and sustainability strategy, entailing the preparation of dissemination materials and the organisation of dissemination activities and events, all of which are intended to help 'build the case' for the CarePath project and its core messages around the integration of a trauma-informed approach within European aftercare support structures for children and young people ageing out of care.

The overall communication goal of the *CarePath project* will be to create 'added value' of project results as well as to spread and to successfully exploit the CarePath deliverables. With regard to specific objectives, the *Communication and Sustainability Plan* identified them as follows:

1. **In terms of communication:** To ensure high visibility of the project and to create and raise awareness towards relevant stakeholders at local, national and European levels
2. **In terms of dissemination:** To ensure effective dissemination of project deliverables and results to key targets and broader audiences in public, academic and non-governmental sectors at local, national and European levels
3. **In terms of sustainability:** To ensure that stakeholders are aware of availability of a free mechanism for integrated aftercare support and are enabled to use project results in their own work
4. **In terms of EU added value:** To promote the EU added value by demonstrating how EU funding contributes to tackling societal challenges and promoting the rights of the child.

Overview & structure of the CarePath project Awareness Raising Info Days

Under the project specifications for the CarePath project, five national awareness raising Info Days (1 in each country, 2 in Italy) were envisioned. The purpose of these sessions was to present the CarePath project, its results and to inform the wider audience about children's rights in relation to aftercare. It was envisioned that

at least 500 stakeholders would be engaged in this way across the five sessions, and that the events would be organised in the language of the hosting CarePath partner. The target audience was public authorities, professionals, training providers, students, adolescents in care and care leavers and the general public.

The Info Day sessions were supported with project communication materials and the project's web resources, developed under 'Deliverable 5.2.2 Communication Materials'. CarePath communication materials included were prepared in each partners' languages, and included:

- Consistent use of project logos and branding
- Project brochures
- Project flyers (both general and for the massively open online course (MOOC))
- Project banners

The project's social media channels, newsletters and partners' organisation's webpages and private mailing list were actively used to promote and supported the Info Days' dissemination online to help these events reach higher audience participation and communicate the key messages to additional audiences.

As stated above, it was originally intended to host 5 larger events of 100 attendees each to reach 500 participants in total. However, as the project's lifecycle developed, the Project Partnership agreed that convening smaller, but more frequent Info Days would also enable the fulfillment of the goals of the project's Dissemination and Sustainability plan, and open the possibility for reaching an even wider and varied audience for the CarePath project.

Through the use of Information and Communication Technologies, the project partnership was able to engage wider audiences utilised by project partner and WP5 coordinator Eurochild to tap into its European-wide network. This online engagement in Info Day related activities was achieved through webinar format events as a part consequence to the required shift to online-based activities as a result of the COVID-19 pandemic and its impacts on inter-European travel.

Finally, due to the withdrawal of one project partner, Regione Calabria, additional Info Days were organised in northern Italy to compensate for the lack of a session in the southern part of Italy, as initially planned.

By the project's close in 2020, **the CarePath's Awareness Raising Info Days sessions reached a total of 2,365 participants across the four countries of the project.** This far exceeds the original target of 500.

This result, and others related to the CarePath communications and dissemination activities are further discussed in the Deliverable 5.3.4: Dissemination Report.

The next section details these activities by project partner and by country of the project.

Breakdown of the Awareness Raising Info Days

The participation in Awareness Raising Info Days sessions are detailed in the tables below. The first table lists all of the sessions carried out over the duration of the CarePath project. The second table summarises the activities in each country of the partnership in alphabetical order.

A zip file has been created for the purpose of storing the relevant and collected outputs for each activity listed below, and has been uploaded alongside this report.

Table 1: List of all the Awareness Raising Info Days carried out throughout the CarePath project

No.	Partner	Country	Date	Description	Number of participants	Outputs (agenda/invitation, attendance list, minutes, presentation, any proof of event)

Table 2: Summary of CarePath InfoDays audience by country & total

Country	Total audience reached through deliverable	Original project goal	Goal achieved?
Belgium/Europe	429	500	Yes
Italy	1,327		
Greece	495		
Hungary	114		
Total audiences reached	2,365		

Conclusion

By the project's close in 2020, **the CarePath's Awareness Raising Info Days sessions reached a total of 2,365 participants across the four countries of the project. This far exceeds the original target of 500.** This success reflects the high level of engagement amongst the CarePath Partnership to disseminate the CarePath Project and its activities therein with audiences across the four countries of the Project, and beyond to wider European and global stakeholders.

The diversity of audiences reached through CarePath Awareness Raising Info Days is also a success story for the CarePath Partnership. Partners disseminated the Project and its results to audiences at international, national and local levels. Audiences included policymakers, child protection professionals, students and care experienced children and young people themselves. The partnership hopes that this variety of audiences has helped create a CarePath community of stakeholders who will continue to use the trauma-informed care approach of CarePath in their work and studies beyond the lifespan of the CarePath Project.

Conference website image:

1st Restart mAI City Plug & Play Conference

The 1st Restart mAI City Plug & Play Conference is addressed to all Greek Municipal Authorities and is expected to be attended by more than 400 employees from all over Greece. It's a unique networking event, whose main goal is to bring all the Municipal Authorities in touch with the existing policies and with readily applicable and functional, technological solutions, in order to develop more friendly, functional, smart and safe cities. For this very reason, the conference agenda has been linked to both the EU Urban Agenda and the UN Sustainable Development Goals.

During the first 2 days, participants will have the opportunity to discuss policies and initiatives that exist at national and European level. On the third day, the participants will be informed and discuss all the applications and solutions designed and implemented in the Municipality of Trikala (Smart Trikala, MEA, GiSeMi, Activage, etc.). ICCS, our project coordinator, will have a booth at the exhibition area of the conference dedicated to two projects of us: ICT4CART & ELVITEN. Moreover, Dr. Angelos Amditis & Dr. Giannis Karaseltanidis will attend the event to launch & grow connections & share knowledge with the attendees.

Παρουσίαση CarePath

30th Σεπτεμβρίου 2019 Standard 0

Στο πλαίσιο του 1ου Plug and Play Συνεδρίου Restart Mai City, που έλαβε χώρα στη πόλη των Τριτσών στις 26 με 28 Σεπτεμβρίου 2019 και συγκεκριμένα στο πάρκο του Μανώπουλου, παρουσιάστηκε και το έργο CarePath. Το CarePath είναι μια διετής πρωτοβουλία που στόχο έχει τη βελτίωση σε εθνικό και διεθνή επίπεδο των Υποστηρικτικών Δομών για την προστασία των ανηλίκων ώστε να παρέχουν επαρκή μεταδραστική υποστήριξη, ενημερωμένη σχετικά με το φυσικό τριπλασια στα παιδιά που αποχωρούν λόγω ηλικίας. Η ομάδα Έργου του CarePath αποτελείται από το Eurochild, το Πανεπιστήμιο Università degli Studi di Torino, τον Δήμο Calabria, το ίδρυμα IACP – Istituto dell'Approccio Centrato sulla Persona, τους Έλληνες ειδικούς ReadLab, e-Trikala, ERGO και τον Οργανισμό Cordelia Foundation for the Rehabilitation of Torture Victims.

Οι σύνεδροι και οι επισκέπτες ενημερώθηκαν για την εκπαιδευτική πλατφόρμα, που θα τρέξει στο πλαίσιο του CarePath τους επόμενους μήνες και που απευθύνεται σε επαγγελματίες στο χώρο της υποστήριξης ανηλίκων π.χ. κοινωνικοί λειτουργοί, θεσμογένη, ψυχολόγοι, επαγγελματίες υγείας, εκπαιδευτικοί.

Στο συνέδριο παραβρέθηκαν 465 σύνεδροι, 100 δήμοι της χώρας και 50 ομιλητές. Info sessions πάνω στην εκπαιδευτική πλατφόρμα πραγματοποιήθηκαν τις δύο πρώτες μέρες στο stand της e-trikala.

Link: <https://www.carepath-project.eu/site/>

The CarePath project was presented as part of the 1st Plug and Play Conference Restart Mai City, which took place in Trikala on September the 26 to 28 2019 and specifically in Matsopoulos Park. CarePath project is a two-year initiative which aims to improve national and regional child protection systems in providing integrated aftercare support to children ageing out of care. The project team consists of Eurochild Università degli Studi di Torino Regione Calabria IACP – Istituto dell'Approccio Centrato sulla Persona ReadLab e-Trikala ERGO and Cordelia Foundation for the Rehabilitation of Torture Victims.

The participants and visitors were informed about the educational platform, which will run under CarePath in the coming months aiming toward professionals in the field of child support eg social workers, lawyers, psychologists, health professionals, teachers.

The conference was attended by 465 delegates, 100 Municipalities and 50 speakers. Info sessions on the educational platform took place during the first two days at the e-trikala stand.

This Project is co-funded by the European Union's Rights, Equality and Citizenship Programme (2014-2020) under the REC-RCHI-PROF-AG-2017 grant agreement No 785698. Proposal Acronym: CarePath.

Training for Trainers Workshop

30 & 31 of December 2019

Mill of Matsopoulos, Trikala, Greece

Co-funded by the European Union's
Rights, Equality and Citizenship
Programme (2014-2020)

Agenda

CarePath Project

Training for Trainers

1st Day: December 30th 2019

10.00am – 14.00pm: Mill of Matsopoulos, Trikala

- 10.00am Welcome and Enrollment
- 10.15am Warm up Activity "The circle of Trust" Christina Karamperi & George Gorgogetas
- 10.30am "What is the Carepath project" Christina Karamperi
- 11.00am Coffee break
- 11.15am "About Module I" Christina Karamperi
- 12.12am "About Module II" Christina Karamperi
- 13.00pm "co-creation Activities" Christina Karamperi & George Gorgogetas
- 14.00pm End of day one

2nd Day: 31th of December 2019

10.00am- 14.00pm: Mill of Matsopoulos, Trikala

- 10.00am Welcome & video presentation
- 10.15am Warm up event "Circle of Trust" Christina Karamperi & George Gorgogetas
- 10.30am "About module III" Christina Karamperi
- 11.30am coffee break
- 12.00am "About module IV" Christina Karamperi
- 12.30am "MOOC user guidelines" Christina Karamperi

- 13.00pm “Co-creation Activity via a Round Table” Christina Karamperi & George Gorgogetas
- 14.00pm End of workshop “One last word Event”

Empowering public authorities and professionals
towards trauma-informed leaving care support

Training for Trainers Workshop

30 & 31 Δεκεμβρίου 2019

Μύλος Ματσόπουλου, Τρίκαλα, Ελλάδα

Co-funded by the European Union's
Rights, Equality and Citizenship
Programme (2014-2020)

Agenda

CarePath Project

Training for Trainers

1^η Μέρα: 30 Δεκεμβρίου 2019

10.00π.μ – 14.00μ.μ: Μύλος Ματσόπουλου, Τρίκαλα

- 10.00π.μ Χαιρετισμός και Εγγραφή
- 10.15π.μ Warm up Activity “Ο κύκλος της Εμπιστοσύνης” Χριστίνα Καραμπέρη και Γιώργος Γοργογέτας
- 10.30π.μ “Σύντομη παρουσίαση του Έργου Carepath” Χριστίνα Καραμπέρη
- 11.00π.μ Coffee break
- 11.15π.μ “Παρουσίαση της πρώτης Εκπαιδευτικής Ενότητας” Χριστίνα Καραμπέρη
- 12.12π.μ “Παρουσίαση της δεύτερης Εκπαιδευτικής Ενότητας” Χριστίνα Καραμπέρη
- 13.00π.μ “Δύο co-creation Activities” Χριστίνα Καραμπέρη και Γοργογέτας
- 14.00μ.μ Λήξη της πρώτης μέρας

2^η Μέρα: 31 Δεκεμβρίου 2019

10.00π.μ- 14.00μ.μ: Μύλος Ματσόπουλου, Τρίκαλα

- 10.00π.μ Χαιρετισμός και Παρουσίαση του βίντεο
- 10.15π.μ warm up event “Ο κύκλος της Εμπιστοσύνης” Χριστίνα Καραμπέρη και Γιώργος Γοργογέτας

- 10.30π.μ “Παρουσίαση της τρίτης Εκπαιδευτικής Ενότητας” Χριστίνα Καραμπέρη
- 11.30π.μ coffee break
- 12.00π.μ “Παρουσίαση της τέταρτης εκπαιδευτικής ενότητας” Χριστίνα Καραμπέρη
- 12.30π.μ “Τεχνικά Χαρακτηριστικά: Οδηγίες χρήστη” Χριστίνα Καραμπέρη
- 13.00μ.μ “Co-creation Activities μέσω Στρογγυλής Τράπεζας” Χριστίνα Καραμπέρη και Γιώργος Γοργογιέτας
- 14.00μ.μ Ολοκλήρωση του workshop “One last word Event”

Αξιότιμη κ.ι. Ζωΐτου

Η Ε-Τρίκαλα Α.Ε (Διαστημική Στοιχεία του Δήμου Τρικαίων) συμμετέχει στο πρόγραμμα CarePath (www.carepath.gr/jst.es), μια διετή πρωτοβουλία που στοχεύει στη βελτίωση των σθένών και παρεμβατικών συστημάτων προστασίας των παιδιών, παρέχοντας ολοκληρωμένη υποστήριξη σε παιδιά που απειλούν από τις δράς ενδοοικογενειακής φροντίδας λόγω ηλικίας.

Με συγχρηματοδότηση από το Ευρωπαϊκό Πρόγραμμα Δικαιωμάτων, Ισοτητας και Ιθαγένειας και σε συντονισμό από το Γραφείο του Έργου (Γόρφο, Ελλάδα), το έργο θα υλοποιηθεί στην Ελλάδα, την Ελλάδα, την Ολλανδία και το Βέλγιο.

Το έργο θα αναλάβει την παροχή των επαγγελματιών που απασχολούνται σε διαδύ/νσηματα φροντίδας των παιδιών, να υποστηρίξουν αποτελεσματικά τα παιδιά λαμβάνοντας υπόψη τις ανάγκες τους. Το έργο θα επιδιώκει την ανάπτυξη ενός βιώσιμου μηχανισμού, που θα επεξεργάσει στις δημόσιες αρχές και τους επαγγελματίες να παρέχουν ολοκληρωμένες υπηρεσίες μηχανισμών υποστήριξης στα παιδιά που εγκαταλείπουν τη φροντίδα τους μέσα από εξολοκλιμένες περιπτώσεις για το υγιεινό τρόπο.

Στα πλαίσια λοιπόν του έργου έχει δημιουργηθεί μία εξαιρετική εκπαιδευτική πλατφόρμα που απευθύνεται σε επαγγελματίες όλων που απασχολούνται ή υποστηρίζουν παιδιά. Θεωρώ πως θα έχει πραγματικό ενδιαφέρον και για τους αναγνώστες σας.

Στο αρχείο που επισυνάπτεται έχει προσοιότητες λεπτομέρειες για την εκπαιδευτική πλατφόρμα.

Προς το παρόν, θα ήθελα να σας προσκαλέσω, τόσο εσάς όσο και τους αναγνώστες σας στο δήμερο workshop, που θα πραγματοποιηθεί στις 10 και 11 Δεκεμβρίου και ώρα 10.00πμ με 14.00πμ στην αίθουσα συνεδριάσεων (Ε-Τρίκαλα Σ.Α. Καλαμάκας 28, Τρίκαλα) το οποίο και αφορά την εξειδίκευσή σας με τη θεωρία και τη φιλοσοφία της εκπαιδευτικής πλατφόρμας CAREPATH. Η επίσκεψη του workshop θα αποτελεί σε δεύτερο χρόνο. Προς το παρόν θα ήθελα μία επιβεβαίωση συμμετοχής από εσάς καθώς και μία λίστα ονόματων που θα συμμετέχουν.

Με εκτίμηση

carepath

Empowering public authorities and professionals
towards trauma-informed leaving care support

About CarePath

Christina Karaberi

Training for Trainers Workshop, Trikala 2019

Co-funded by the European Union's
Rights, Equality and Citizenship
Programme 2014-2020

Empowering public authorities and professionals
towards trauma-informed leaving care support

carepath

‘CarePath’ project, a two-year initiative which aims to improve national and regional child protection systems in providing integrated aftercare support to children ageing out of care

Empowering public authorities and professionals
towards trauma-informed leaving care support

carepath

Only a few EU Member States have ensured that the views of children are reflected in planning for leaving care

Even where child participation takes place, leaving care mechanisms fail to screen and assess children's trauma to effectively respond to their needs towards independent living.

The UN Guidelines for the Alternative Care of Children highlight the importance of timely and adequate preparation for leaving care and aftercare support to children and young people transitioning out of alternative care.

Empowering public authorities and professionals
towards trauma-informed leaving care support

carepath

Project activities focus on:

- Identification of transferable leaving care mechanisms and trauma-informed interventions;
- Training of professionals working with traumatised children, based on the views of care leavers and adolescents in alternative care;
- Development of an open online course for professionals on leaving care and aftercare support provision;
- Establishment of the CarePath integrated service provision mechanism for cases of traumatised children leaving care;
- Organising a European conference on trauma-informed child protection systems

Empowering public authorities and professionals
towards trauma-informed leaving care support

carepath

The project targets:

- public authorities
- municipalities and bodies responsible for child protection in four European countries.
- professionals such as psychologists, psychotherapists, arts therapists, social and healthcare workers, counsellors working with children ageing out of care, as well as vocational training providers in the field of psychotherapy, arts therapy, social work, education, healthcare

Empowering public authorities and professionals
towards trauma-informed leaving care support

carepath

MOOC Educational Platform in numbers:

- Starting date 13th of January up to 26th of February 2020
- 4 educational modules
- 8 weeks duration
- 100 participants in Greece
- Greek, English, Italian, French and Hungarian Language

Empowering public authorities and professionals
towards trauma-informed leaving care support

carepath

MOOC Platform educational modules:

Module 1 – Trauma Care: to know, to do, to be in order to protect and promote children and operators rights, wellbeing and resilience

***Module 1** of the CarePath Project online course is offering to different professionals and to anyone interested in issues related to trauma - coming from different nations that are protecting and promoting the rights and welfare of traumatized children - the opportunity to have easy access to updated scientific knowledge about the most effective and efficient ways to support and empower traumatized children, avoiding at the same time the risks of clients retraumatization and the vicarious trauma of professionals*

Empowering public authorities and professionals
towards trauma-informed leaving care support

carepath

MOOC Platform educational modules:

Module 2 – Trauma- Informed Care (TIC) in Research

Module 2 - *A relevant section of the training course will focus on TIC research issues. In particular, the fundamental elements of research projects will be presented with a view dedicated to methodological aspects, role of evidence-based approach, critical elements and challenges at an application level, the relevance of the structuring projects scientifically based on both the evaluation and proposal of policies at the international level. A special focus will be dedicated to the action research and to observation and indicators with particular reference to trauma in children. The main competences that learners will acquire concern the ability to look critically at the practices both of intervention and, specifically, of research. Awareness of the relevance of the planning phase will encourage participants to maintain a multidisciplinary look that allows an approach to the complex dimension of intervention in the field of mental health.*

Training for trainers workshop

Empowering public authorities and professionals
towards trauma-informed leaving care support

carepath

MOOC Platform educational modules:

Module 3 - Legal framework and fundamental legal principles within which the Trauma Informed Care (TIC) approach can be applied

Module 3 aims to provide basic knowledge on the legal framework and on principles within which the Trauma Informed Care (TIC) can be applied.

In this perspective, after presenting the cultural and legal process that led to the recognition of children's rights at a global and European level, we illustrate the fundamental rights and principles established by the international and European legal framework in force, within which the Trauma Informed Care (TIC) can be applied and describe the legal instruments that guarantee the participation of traumatized children in decisions and proceedings (administrative and judicial) affecting them.

Finally, the module examines the operational effects on social and health policies of the approach based on the rights of the child and on the rights of participation of children and young adults.

Training materials include law and legal documents presented along with video pills from university professors, expert video testimonials, but also referrals to external videos and movie trailers.

Training for trainers workshop

Empowering public authorities and professionals
towards trauma-informed leaving care support

carepath

MOOC Platform educational modules:

Module 4 – Final Assignment

***Module 4** of the training course aims to allow participants to consolidate and critically use the knowledge learned in the previous sections. It takes the form of a final assignment and consists in reflecting, starting from a scenario, on a situation of abuse/maltreatment on a child and, therefore, on a traumatic condition in the light of the core principles of the Trauma Informed Care. The final goal is to encourage a personal reflection that combines a multidimensional reading (with the adoption of psychological, legal and scientific research perspectives) both of the situation and of the possible interventions that are effective in promoting and protecting ~~of~~—children rights, prevent retraumatization, support and promote their resilience and their growth and support their empowerment*

Empowering public authorities and professionals
towards trauma-informed leaving care support

carepath

By empowering the professionals on the field, we empower the children

Project aims

The 'CarePath' project is a two-year EU funded initiative which aims to improve national and regional child protection systems in providing integrated aftercare support to children ageing out of alternative care.

Objectives:

- Ensure that children ageing out of care have access to adequate trauma-informed after care support as part of an integrated child protection system in each participating country.
- Build the capacity of care professionals in child protection systems to effectively support traumatized children by taking into account their views.
- Develop a sustainable mechanism that will enable public authorities & professionals to provide comprehensive psycho-social support services to children leaving care, based on trauma-informed interventions.

Trauma-informed care refers to the delivery of appropriate aftercare through provision of therapy arrangements and/or psychosocial support

- premised on active participation of, and in the best interests of, the child or young person who is leaving care.

HOW and TO WHOM?

Project activities:

- Identifying transferable leaving care mechanisms (across EU) and trauma-informed interventions;
- Developing a free open online course for professionals on leaving care and aftercare support provision, based on the views of care leavers and adolescents in alternative care;
- Developing policy recommendations for national and European policymakers on trauma-informed care;
- Organising a European conference on psychosocial care with a focus on calling for strengthening child protection systems with trauma-informed care.

Target audience:

- Public authorities, municipalities and bodies responsible for child protection;
- Professionals such as psychologists, psychotherapists, art therapists, social and healthcare workers, counsellors working with children ageing out of care, vocational training providers, etc.

Empowering public authorities and professionals
towards trauma-informed leaving care support

2. Experience of delivering trauma-informed care by Malin Lindholm, Save the Children Sweden

Co-funded by the European Union's

Programme 10101-10101

Empowering public authorities and professionals
towards trauma-informed leaving care support

3. Introduction to the CarePath online training course (MOOC)

Co-funded by the European Union's
Rights, Equality and Citizenship
Programme 10101-10101

CarePath online training course (MOOC)

A free massively open online course (MOOC) on trauma-informed care.

Based on the views of care leavers & adolescents in alternative care.

- **Audience:** professionals and public authorities who wish to deepen their knowledge on practices and interventions for children in care who have suffered traumatic events
- **Duration:** 8 weeks (starting in January 2020) / a total of 60 hours
- **Languages:** EN, IT, FR, HU, EL

<https://mooc.carepath-project.eu/>

CarePath online training course (MOOC)

Learning outcomes

- **Module 1:** Learners will be introduced to the scientific knowledge about the most effective and efficient ways to support and empower traumatised children
- **Module 2:** Learners will acquire the ability to look critically at the intervention practices and research of trauma-informed care (TIC)
- **Module 3:** It will provide an overview of the legal framework and principles within which TIC approaches can be applied.
- **Module 4:** Learners will reflect on how to intervene in case of child abuse or neglect and on how to support children while ensuring children's rights are protected.

Role and tasks of the CarePath 'trainers'

Trainer's manual

- Intended to provide a theoretical and practical framework to the trainers
- Includes a breadth of resources

Empowering public authorities and professionals
towards trauma-informed leaving care support

4. Call to action for trainers

Co-funded by the European Union's
Rights, Equality and Citizenship
Programme 2014-2020

Empowering public authorities and professionals
towards trauma-informed leaving care support

5. Other relevant CarePath outputs

Co-funded by the European Union's
Rights, Equality and Citizenship
Programme 2014-2020

Other relevant outputs of the CarePath project

- **Policy Report** outlining the trauma-informed care approach and the argument for embedding the approach into aftercare support delivered to CYP ageing out of care. It also issues a number of recommendations to EU, national and regional policymakers to embed trauma-informed care in practice.
- **EU Policy Conference** on 30 April 2020 in Brussels.
- **Good Practice Guide** on trauma informed leaving care support.
- **Social media** channels.
- **Consultation with professionals and care leavers** in the participating countries.

Dear CiAC members,

As announced earlier this week we would like to invite you to **CiAC online meeting** that will take place on **Tuesday 7 April at 14:00**.

To attend the meeting **Join Zoom Meeting** at <https://zoom.us/j/859726467>. (Meeting ID: 859 726 467) There is a possibility to call in the meeting (for those who are interested) please let me know I'll provide you with more details.

When possible please use headphones and keep your microphones muted unless you would like to speak.

Agenda for CiAC meeting – Tuesday 7 April at 14:00

1. Welcome and explain the purpose of the meeting (Zuzana)
2. Eurochild's response to COVID-19 & 2020 CiAC work-plan (Jana)
3. Discussion with members:
 - What's going on, what are the biggest challenges - how is the alternative care system responding? (residential care, foster care)
 - What are immediate needs in the sector?
 - What might be the mid-to long-term impact?
 - Do you have any good practices/useful resources to share? Have you provided any policy positions or recommendations to the government?

If you have any question please let us know.

We are looking forward to seeing you on Tuesday.

Best regards,

Zuzana

Subject: Children in alternative care updates - proposal for online meeting

Now finalised - apologies!!

This e-mail is addressed to all Eurochild members active in our working group on children in alternative care. Apologies it is rather long.

The COVID19 crisis is impacting every aspect of our personal and professional lives. First & foremost, we hope you and your loved ones are all safe and well. We understand that your organisations & those working with you must be under particular strain as you adapt to minimise the health risks to staff & try to continue with vital services. We know that children and families you serve will be particularly vulnerable right now and many more will be struggling to cope with confinement measures, probably leading to an increased risk of violence against children.

The Eurochild team, all working from home since 12 March, are also trying to adjust to this new reality & to take stock of how our priorities & work needs to adapt to most meaningfully respond to this situation. We know the importance of getting information to decision-makers so that their emergency response and recovery plans take account of children's rights. We released a [public statement](#) last week drawing attention to some of the issues we see emerging. We realise, more than ever, the importance of connecting with members and the reality on the ground.

For that reason, we would like to organise an online meeting next week on 7th or 8th April specifically on the issue of children in alternative care. Please could you indicate your availability in this [doodle](#) by the end of this week, Friday 3 April. Apologies this is such late notice & don't worry if you cannot attend. We will try to connect more regularly with on-line meetings.

With this email I would also like to give you a brief update on the status of our different work-streams in the area of children in alternative care & the opportunities for you to engage.

- 1. Data mapping ("Data Care project")**
The mapping of data collection systems on child protection across 27 EU Member States and the UK is continuing thanks to support from UNICEF Office for Europe & Central Asia. We recruited a senior research coordinator, Gaspar Fajth, who is now developing the research protocol. We had a first online meeting with a small number of researchers and experts with links to national authorities this week. We propose an online meeting Eurochild members to input to this work on 29th April (the original date of our General Assembly). Following this meeting, there will also be the opportunity to provide written feedback.
- 2. Technical assistance to member organisations to support advocacy on child protection reforms**
As you are aware, thanks to a partnership with the Martin James Foundation, Eurochild has an open call for a small sub-grant to support member organisations in advocating on child protection reforms (deadline this Friday). We will be reviewing with applicants how to ensure this support can be most effectively deployed in view of the crisis. MJF are indeed encouraging us to be as flexible and responsive as possible, to ensure the resources are directed to where they are most needed.
- 3. Facilitating peer learning & exchange**
For now we are still envisaging to hold a meeting for CiAC members on 1-2 October in Brussels. In the meantime though we will continue with more regular online meeting opportunities.
- 4. EU advocacy & influencing**
We continue to engage with the European Semester process, reviewing country reports. With your support we hope to update Country Fact sheets & send to European Commission officials in early Autumn. We are also closely following developments on the multi-annual financial framework. The debate is monopolised by COVID19 & the response right now. We need to monitor how our sector will be affected. We continue to engage with preparations for the EU Child Guarantee & the EU's comprehensive strategy on the rights of the child. Both initiatives are likely to still go ahead, but most likely with reduced resources. We stay active in the European Expert Group on the transition from institutional to community based care - which is also in the process of reviewing how best to respond as a community to this crisis.
- 5. Thematic papers on necessity & suitability principles**
We envisaged that the funding from Martin James Foundation would help us to curate information on state-of-the-art related to the 'necessity' & 'suitability' principles. We expected to start work on the first paper - on the 'necessity principle' this Autumn, hiring an expert to support the research and drafting. We will be reviewing this activity in the light of the impact of the crisis
- 6. CarePath project**
Eurochild is partner in this project focused on **trauma-informed care**. The project's findings & recommendations that CiAC members have previously provided feedback will be included in a Policy report. A [CarePath conference](#) on aftercare across Europe should be organised in Brussels in the Autumn.

NOW WHAT?

Preparing and empowering youth leaving care

12 February 2020 – Detailed programme overview (version 23.01.2020)

8.30 Registration and welcome coffee

9.30 – 11.00 Welcome and setting the scene

- Prof. univ. dr. Marilen Gabriel Pirtea – Rector of West University Timisoara
- Florentina Nanu, President of SOS Romania
- Monica Trusca –Director and project coordinator DGASPC Timis, Romania
- Mr Marc Van den Reek, Ambassador (H), Head of International Cooperation –Asociația 'The Smile of the Child', Grecia

- Representative of Ministry of European Funds (TBC)
- Representative of Ministry of Labour and Social Justice (TBC)
- Maria Cristina Marin, Inspector, Early education department, Ministry of Education and Research
- Cristiana Costinescu, Team Leader FSE Romania, DG Employment, Social Affairs and Inclusion
- Kenny McGhee - Throughcare and Aftercare Lead- CELCIS, University of Strathclyde
- EUROCHILD representative (TBC)

11.00 -11.30 Coffee break and networking

11.30 – 13.00 Panel discussion: Situation of young care leavers in Romania

- Maria Madalina Turza, President, National Authority for the rights of persons with disabilities, children and adoptions, Romania
- Diana Podaru, National Director, SOS Romania
- Alexandru Toth, researcher Sociometrics, Romania
- Gabriela Podasca - deputy

13.00 -14.30 Lunch

14.30 -16.00 Panel discussion: Results of the project and recommendations

- Mihaela Tomita- project manager, Professor Social Work Department, West University of Timisoara, Romania
- Ourania Xylouri – director Athens Lifelong Learning Institute, Athens, Greece
- Rudina Rama - Associate professor, Head of Social Work and Social Policies Department, Faculty of Social Sciences, University of Tirana, Albania

Now What? Conference photos

Eurochild
Putting children at
the heart of Europe

NOW WHAT?

**Harnessing the experiences of youth leaving care to
influence change at EU & national levels**

Eurochild's perspective

Bucharest February 2020

Introducing Eurochild – who are we?

A European network of organisations working with and for children throughout Europe, striving for a society that respects the rights of children.

Advocating for children's rights and well-being to be at the heart of policymaking

The UNCRC is the foundation of all our work.

Eurochild

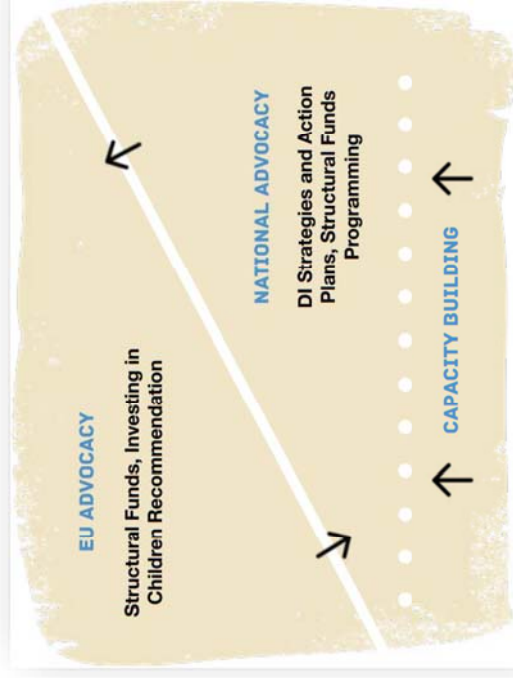

176 members

130 Full members
42 Associate members
4 Honorary members

34 countries

Introducing Eurochild - How do we work?

2. Sustainable, response
and recognised network

1. Top-down /
bottom-up advocacy

3. Meaningful child
participation

Introducing Eurochild - What do we want to achieve?

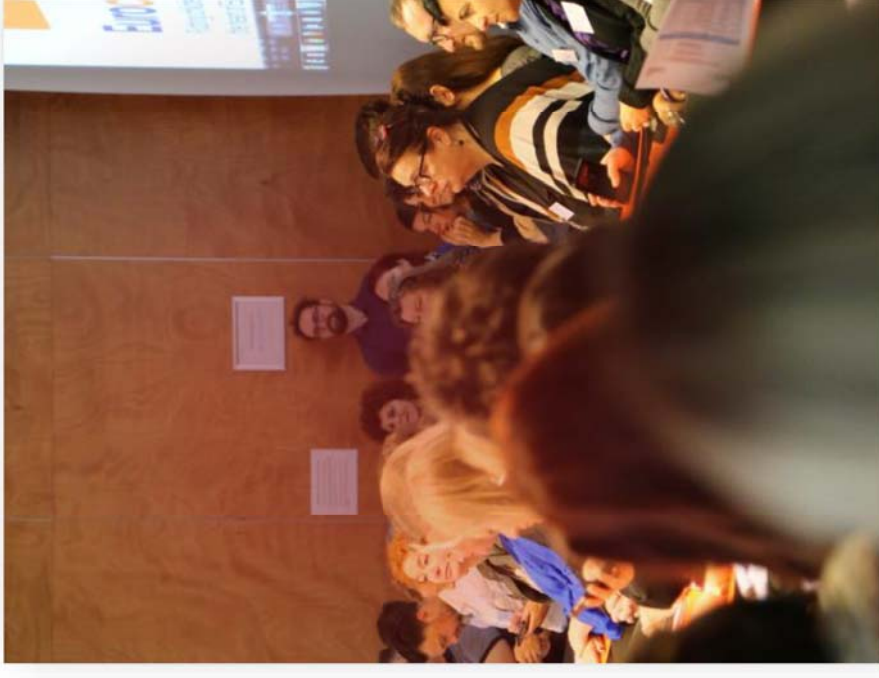

Goal 1 – End to child poverty & social exclusion

Goal 2 – **end to institutional care for all children in Europe**

Goal 3 – more recognition & understanding of children's rights in political discourse

Eurochild

Strategic Goal 2 – Ending institutional care for all children in Europe

SPECIFIC OBJECTIVE 1 - Deinstitutionalisation is prioritised in EU policies, funding regulations and programming through evidence-informed advocacy

- ✓ Awareness raising events
- The transition from institutional to family- and community-based care is prioritised in EU funding regulation post 2020 as well as in the allocation and use of EU funds at national level
- ✓ Monitoring, analyzing and influencing EU policy/funding on the transition from institutional to family and community based care, including next EU MFF
- Ensuring that DI advocacy is evidence based
- ✓ Maintaining & strengthening our ‘top-down’, ‘bottom-up’ advocacy with EU institutions & members
- ✓ Mapping of child protect systems in EU

SPECIFIC OBJECTIVE 2 - Members have improved advocacy capacity and are supported in mutual learning and exchange on deinstitutionalisation

- ✓ Members are supported to advocate for child protection reforms at national level

✓ **Engagement of care leavers**

Eurochild

Our past work – The National Survey on Children in Alternative Care

In 2009 Eurochild carried out a survey of the situation of children in alternative care in Europe, 30 European countries participated

- 1. Lack of consistent and comparable data**
2. estimated 1 million children in the EU are in alternative care
3. Institutional care still widely used for children without adequate parental care across EU (BG, CZ, LT, LV, RO)
4. Placement of under 3s in institutions in several MS (CZ, RO)
5. certain vulnerable groups are overrepresented in care statistics (Roma children, children with disabilities)

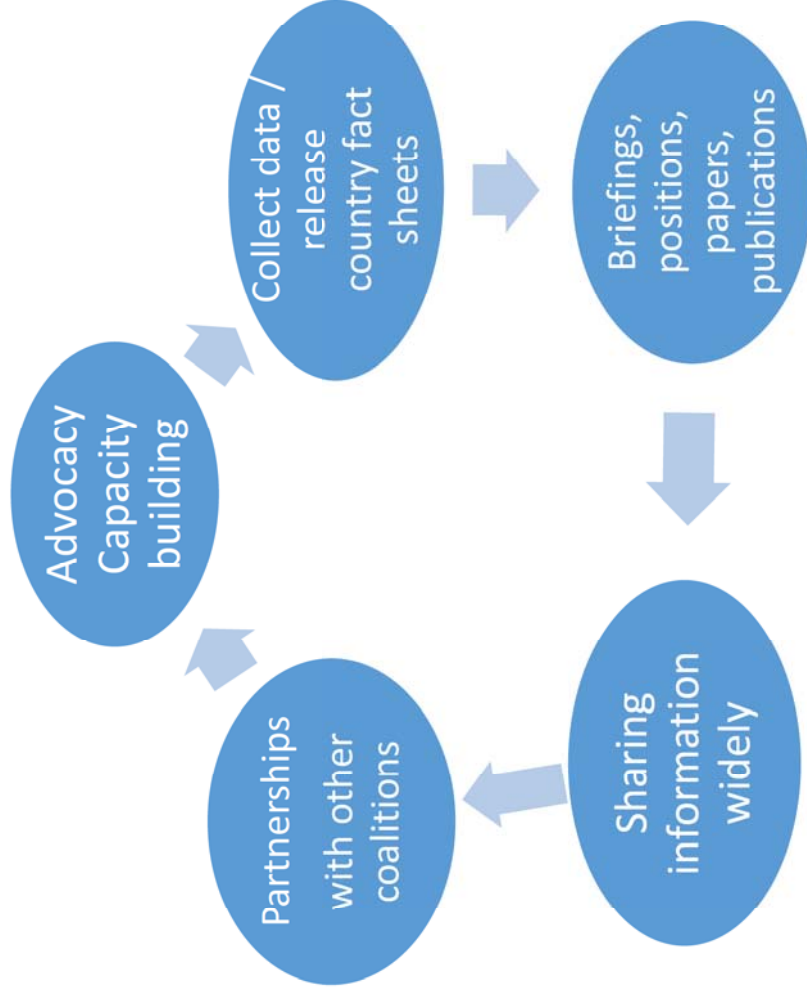

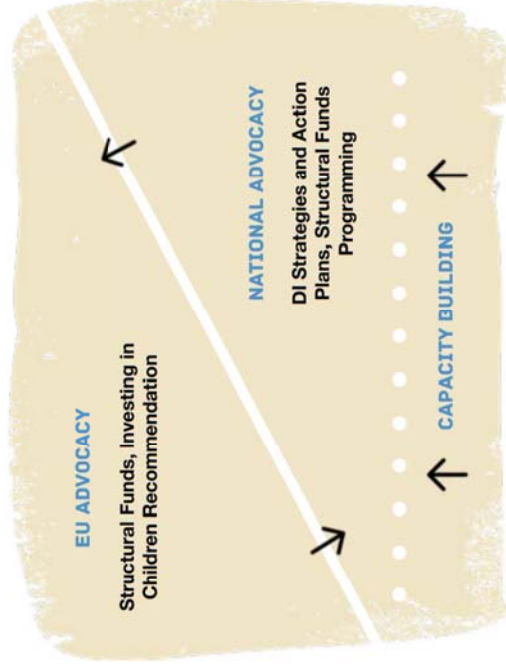

Eurochild

6. Families facing poverty and social exclusion are at great risk of their children being taken into care
7. Many children with experience of care carry psychosocial problems into adulthood
8. Standards to protect the rights of children in alternative care still weak; participation of families & children is poor
- 9. Peer led groups of children and young people who are living, or have lived, in alternative care are still too few in Europe**

Our current work - EU-national level advocacy

'Top-down/Bottom-up' advocacy approach

Eurochild

Example 1: The Opening Doors Campaign

Common vision to end institutionalisation of children in Europe. This vision was transformed into a 7 year pan-European campaign.

Partnership **between 5 international partners and civil society organisations across 16 European countries** that was running 2013-2019.

Goals:

- Ensure deinstitutionalisation is retained as a priority for the EU institutions, and **European States are encouraged to use EU funding and policy coordination tools** to reform their child protection systems via the transition towards family- and community-based care.
- **Support national civil society partners** to develop the knowledge, expertise and capacity to advocate for deinstitutionalisation at national level, and to leverage and monitor EU policies and funding.

STRENGTHENING FAMILIES. ENDING INSTITUTIONAL CARE. CARE

ROMANIA

2018 COUNTRY FACT SHEET

The process of deinstitutionalisation (DI) seems to have been demoted on the list of priorities by the Romanian government lately. Such change of focus and the fact that the government did not include children on the agenda of the National Strategy for the Protection of Children's Rights 2014-2020, together with the fact that there has been coupled with significant delays in the allocation of EU funds and the prioritisation of EU calls for funding supported with the child protection system reform in Romania.

According to the National Strategy for the Promotion and Protection of Children's Rights 2014-2020, all old-type institutions must be closed down and replaced with community-based care. A big step forward in this respect was the governmental decision to close down 50 institutions for children with the help of EU funds. However, the government has not been able to implement this decision in a timely manner, allowing the applicants to have an integrated approach in deinstitutionalisation: stopping admissions in the system, closing down institutions, reuniting children with their families, providing family- and community-based care, and supporting the transition of children to independent living. In 2015, the government prepared an updated Operational Plan to support the implementation of National Strategy for the Promotion and Protection of Children's Rights 2014-2020.

In Romania, every 4th or 5th child born for reproductive or financial reasons lives in an orphaned institution such as the lack of a married spouse, the lack of economic situation, the lack of parenting skills, domestic violence, abuse or neglect.¹ The general public opinion is that the government is not doing enough to protect children. The government has not been able to implement the National Strategy for the Promotion and Protection of Children's Rights 2014-2020 in a timely manner. Institutions are seen as places that are not beneficial for children due to their harmful effects in the long run. According to the National Strategy for the Promotion and Protection of Children's Rights 2014-2020, the number of children in institutions should be reduced by 146,312 for children with special needs and 48,854 for "typical" children. This is expected to foster care of the annual cost of €3,850 and €1,000 respectively.

¹ "Măsurarea nivelului de protecție socială în România", <http://www.csc.ro/ro/raport-anual/2016/raport-anual-2016>, accessed 14.05.2018.

**OPENING DOORS
FOR EUROPE'S CHILDREN**

KEY RECOMMENDATION TO THE EU

**TAKE ACTION AND INCREASE
PRESSURE ON NATIONAL
AUTHORITIES TO RETAIN
CHILD PROTECTION SYSTEM
REFORM ON TOP OF THE NATIONAL
POLITICAL AGENDA, INCLUDING
ALLOCATION AND PRIORITIZATION OF
FUNDS FOR THE IMPLEMENTATION OF
THE EXISTING LEGAL FRAMEWORK, SUCH AS
THE NATIONAL INTEGRATED PACKAGE
FOR COMBATING POVERTY**

KEY RECOMMENDATION TO THE MEMBER STATE

 BUILD ON THE LESSONS LEARNED FROM CURRENT EU FUNDING PERIOD AND ENSURE PROPER PLANNING OF EU FUNDS IN 2021-2027

BUDGET PERIOD. THE REFORM OF CHILD PROTECTION SHOULD FOCUS ON PREVENTION, CLOSURE OF INSTITUTIONS AND SUPPORT OF THE YOUNG CARE-LEAVERS WITH AN INTEGRATED APPROACH TO THE USE OF ESF AND ERDF FUNDS

WWW.OPENINGDOORS.EU

STRENGTHENING FAMILIES. ENDING INSTITUTIONAL CARE.

Achievements and challenges

Achievements:

- [OD CLOSING VIDEO](#)
- Comprehensive **child protection reforms**
- more children growing up in family-based care than institutional care
- The **quality of family-based placements** has improved
- Increase of **foster care providers** in **Romania**

Challenges:

- The lack of recent quantitative data
- **The issue of DI is relevant for all EU countries**
- **EU political pressure & funds need better guidance**
- There is still an **insufficient number of foster families**
- **Give voice to and strengthen the agency of those directly affected**

Project overview

Objectives

- ✔ Ensure that children leaving care have access to adequate trauma-informed aftercare support.
- ✔ Increase the capacity of professionals in child protection systems to support traumatised children.
- ✔ Develop a sustainable mechanism for providing integrated psycho-social support services based on trauma-informed interventions.

Expected results

- ✔ Better trauma – informed support of children in preparing to leave care.
- ✔ Improved child protection systems in partners' countries, providing one-stop trauma-informed interventions.
- ✔ Better skilled professionals, developing individualised plans guided by trauma healing.

Progetto Care Path - in svolgimento (2018-2020) Rights, Equality and Citizenship Work Programme 2017 Topic: REC-RCHI-PROF-AG-2017

Project Title: Empowering public authorities and professionals towards trauma-informed leaving care support — CarePath Grant Agreement N°: 785698

Il progetto CarePath fornirà autorità pubbliche e professionisti dei sistemi di protezione dei bambini con politiche di orientamento e strumenti di formazione interdisciplinare sulla protezione, i diritti e lo sviluppo di bambini e giovani traumatizzati.

1. **Le autorità pubbliche** beneficeranno dello sviluppo di un meccanismo di supporto post-intervento integrato, che coinvolgerà attivamente nella progettazione i giovani utenti e i professionisti specializzati nella gestione dei casi dei giovani utenti che hanno terminato il trattamento e quindi lasciano le cure.

2. **Psicoterapeuti, arteterapeuti, assistenti sociali, psicologi, insegnanti e gli operatori sanitari** nei paesi partner si familiarizzeranno con l'UNCRC (Convenzione delle Nazioni Unite sui diritti dei bambini) le metodologie e gli approcci, inclusi quelli necessari per essere capaci di ascoltare efficacemente ogni bambino, riconoscendo la sua individualità, la sua personalità e i suoi individuali bisogni, fornendo un supporto integrato, centrato sulla persona dell'utente. Gli operatori saranno addestrati ad applicare approcci e pianificazioni trauma-informed per gli utenti che lasciano le strutture dove hanno ricevuto le cure e ad utilizzare standard, strumenti e sistemi comuni per il monitoraggio, la valutazione e la compilazione di report sui casi.

OBIETTIVI del PROGETTO

- Identificare le procedure trasferibili e le metodologie di lavoro trauma-informed nei sistemi integrati di protezione dell'infanzia per quanto riguarda l'uscita dai centri di cura.
- Garantire che i bambini che escono dai centri di cura abbiano adeguato accesso all'assistenza trauma-informed nei paesi partner, come parte di un sistema integrato di protezione dei bambini.
- Aumentare la capacità dei professionisti di fornire supporto ai loro utenti in modo efficace, coinvolgendo direttamente i giovani utenti nel decidere quali forme di supporto post-terapia siano più adatte per loro.
- Sviluppare un meccanismo sostenibile per consentire alle autorità pubbliche e ai professionisti di erogare servizi integrati, trauma-informed di supporto psico-sociale ai bambini e giovani che lasciano i centri di cura

carepath

Incremento delle competenze dei professionisti e delle autorità pubbliche nell'ambito degli approcci rivolti al trauma

www.carepath-project.eu

IL PROGETTO:

Il progetto 'CarePath' è un'iniziativa della durata di due anni che mira a migliorare i sistemi nazionali e regionali di protezione dei minori che escono dai servizi di presa in carico.

Obiettivo del progetto

Il progetto persegue l'obiettivo di garantire che i bambini che escono dai servizi di presa in carico ricevano una assistenza adeguata ed informata sul trauma (Trauma Informed) da parte del sistema integrato di protezione dell'infanzia. Migliora le capacità dei professionisti e mira a sviluppare un meccanismo sostenibile che consentirà alle pubbliche autorità e ai professionisti di fornire servizi di supporto psicosociale ai bambini che escono dai servizi di presa in carico basati su interventi centrati sul trauma.

Destinatari

Il progetto si rivolge alle autorità pubbliche, ai comuni e agli organismi responsabili della protezione dei bambini in quattro Paesi europei. Coinvolge anche professionisti quali psicologi, psicoterapeuti, arteterapeuti, assistenti sociali, operatori sanitari ecc. che lavorano con i bambini che escono dai servizi di presa in carico, così come coloro i quali offrono formazione professionale a questo tipo di utenza.

Le attività del progetto si concentrano su:

identificazione di pratiche trasferibili e di servizi integrati Trauma Informed per i minori che escono dai servizi di presa in carico

formazione di professionisti che lavorano con minori traumatizzati basata sui punti di vista di minori che escono dai servizi di presa a carico e adolescenti in sistemi di assistenza alternativi

sviluppo di un corso online per i professionisti che lavorano con i minori che escono dai servizi di presa in carico

organizzazione di una conferenza europea sulla protezione informata sul trauma di minori vittime di traumi

formazione di professionisti che lavorano con bambini traumatizzati, centrata sulle percezioni e i bisogni degli utenti adolescenti che fruiscono di forme di sostegno alternative

This flyer is a part of the CarePath Project funded by the European Union Rights, Equality and Citizenship Programme (2014-2020). The content represents exclusively the point of view of the project partners and the European Commission cannot be held responsible for any use which may be made of the information.

PARTNER DEL PROGETTO

Co-finanziato dallo European Union's Rights, Equality and Citizenship Programme e coordinato dall'Università di Torino, il progetto si svolgerà in Italia, Grecia, Ungheria e Belgio. Tra i partner sono inclusi: l'Istituto dell'Approccio Centrato sulla Persona (IACP) e la Regione Calabria in Italia; ReadLab, E-Trikala ed ERGO in Grecia; Cordelia in Ungheria e Eurochild in Belgio.

UNIVERSITÀ DEGLI STUDI DI TORINO (UNITO)

Il Dipartimento di Psicologia e il Dipartimento di Giurisprudenza fanno parte dell'Università di Torino che comprende 27 Dipartimenti e corsi di laurea. Il Dipartimento di Psicologia fa parte della Scuola di Scienze Naturali. Il Dipartimento di Giurisprudenza fa parte della Scuola di Scienze giuridiche, politiche e socio-economiche. UNITO conta circa 70.000 studenti e 2.000 tra professori e membri dello staff. UNITO promuove ricerche scientifiche nazionali e internazionali.

REGIONE CALABRIA

La Regione Calabria è un'entità territoriale con un proprio statuto, poteri e funzioni secondo i principi stabiliti dalla Costituzione della Repubblica italiana. Nel progetto Care Path, la Calabria è responsabile dello sviluppo di un quadro di riferimento sostenibile per i servizi integrati ai minori che escono dai servizi di presa in carico.

ISTITUTO DELL'APPROCCIO CENTRATO SULLA PERSONA (IACP)

L'Istituto dell'Approccio Centrato sulla Persona è un'organizzazione scientifica senza fine di lucro dedicata alla protezione e promozione delle potenzialità umane. Offre servizi di formazione, ricerca e consulenza con le varie applicazioni dell'Approccio Centrato sulla Persona - un approccio scientificamente validato formulato da Carl Rogers, uno dei fondatori. IACP è un provider di corsi di formazione continua da parte del Ministero della Salute e del Ministero della Pubblica Istruzione.

EUROCHILD

Eurochild è una rete di 171 organizzazioni e persone provenienti da 34 paesi europei che lavorano con e per i bambini in tutta Europa per promuovere i diritti e il benessere dei bambini e dei giovani. La visione di Eurochild è di una società dove i bambini e i giovani crescano felici, in salute e rispettati come individui nei loro diritti. La missione di Eurochild è di promuovere i diritti e il benessere dei bambini nelle politiche e nelle pratiche che li riguardano attraverso azioni consociative di supporto e ricerca.

E-TRIKALA S.A

E-Trikala S.A è una società di sviluppo del Comune di Trikala (Grecia) fondata nel marzo 2008. Crea infrastrutture e fornisce servizi attraverso lo sviluppo continuo di tecnologie dell'informazione e della comunicazione, applicazioni per migliorare la vita quotidiana di tutti i cittadini. Nell'ambito del programma di finanziamento della società dell'informazione e di altri programmi europei, l'Unione Europea ha approvato più di 20 progetti presentati da e-Trikala durante i suoi primi 10 anni di attività. In collaborazione con ESTIA, stiamo attualmente implementando il progetto

ERGO

ERGO è un'organizzazione non a scopo di lucro che rafforza le capacità psicosociali dei bambini e giovani, oltre a fornire istruzione e consulenza a genitori e professionisti che supportano questi gruppi. ERGO immagina e rivendica un futuro più luminoso, in cui ogni bambino ha diritto al massimo benessere mentale e creativo e ad opportunità di sviluppo.

READLAB

ReadLab è un istituto di ricerca con lo scopo di generare un impatto sociale positivo e sostenibile attraverso l'innovazione. Riunisce team multidisciplinari di ricercatori specializzati negli ambiti della Salute, dell'ingegneria, della comunicazione tecnologica, dell'educazione e delle scienze politiche e sociali, con una lunga esperienza nella gestione progettuale e nell'implementazione di progetti nazionali, UE e internazionali.

CORDELIA

La Fondazione Cordelia è stata fondata nel 1996 con lo scopo di assistere i sopravvissuti alla tortura e richiedenti asilo, rifugiati, familiari e minori non accompagnati gravemente traumatizzati che arrivano in Ungheria fornendo loro assistenza psichiatrica, psicoterapeutica, psicologica e consulenza psicosociale. L'equipe di Cordelia è composta da terapeuti con competenze interculturali (psichiatri, psicologi, terapeuti non verbali) che lavorano con clienti rifugiati, ospitati in centri di accoglienza e presso strutture di protezione dell'infanzia.

EMPOWERING PUBLIC AUTHORITIES AND PROFESSIONAL TOWARDS TRAUMA-INFORMED LEAVING CARE SUPPORT

INCREMENTO DELLE COMPETENZE DEI PROFESSIONISTI E DELLE AUTORITÀ PUBBLICHE NELL'AMBITO DEGLI APPROCCI RIVOLTI AL TRAUMA

Descrizione

Il progetto «CarePath: empowering public authorities and professionals towards trauma-informed leaving care support» è co-finanziato dall'European Union's Right, Equality and Citizenship Programme (REC 2014-2020). Lo scopo del progetto è quello di sviluppare un approccio integrato per la protezione dei minori di tutte le età anche al termine della presa in carico da parte dei servizi nell'UE, potenziando professionisti e autorità pubbliche nell'ambito degli approcci rivolti al trauma.

Obiettivi

- Individuare procedure e metodi di lavoro basati sul trauma all'interno di sistemi integrati di protezione dei minori e di supporto nella fase successiva al termine del processo di cura.
- Garantire la possibilità di accedere, alle persone di età minore che non sono più in carico ai servizi all'interno degli stati partner, a un adeguato supporto nella fase successiva al termine del processo di cura, come parte di un sistema integrato di protezione dei minori.
- Incrementare le capacità professionali per supportare i minori che hanno subito un trauma, coinvolgendoli direttamente nella scelta delle opzioni successive alle cure più adatte a loro.
- Sviluppare un meccanismo che garantisca alle autorità pubbliche e ai professionisti di implementare servizi integrati di supporto psicosociale per minori al termine delle cure, basati sugli interventi rivolti al trauma.

Attività

- Identificazione di metodi di lavoro trasferibili all'interno di sistemi integrati di protezione dei minori, rivolti al trauma.
- Sviluppo di programmi di formazione per professionisti che lavorano con persone di età minore traumatizzate.
- Test pilota del programma, rilascio della formazione per i formatori e dei seminari di formazione.
- Creazione di meccanismi che forniscano i servizi integrati del CarePath per minori traumatizzati al termine del percorso di cura.

Risultati attesi

- Miglioramento del supporto rivolto ai minori traumatizzati che si apprestano a terminare il percorso di cura.
- Miglioramento dei sistemi di protezione dei minori all'interno degli stati partner, promuovendo interventi one-stop rivolti al trauma.
- Miglioramento delle abilità professionali, sviluppando piani individualizzati volti al recupero dal trauma.

Dove va Dorina?

Breve storia di una care leaver

Chi è un «care leaver»?

Una proposta di definizione

Un adolescente o giovane adulto verso il quale cessa la responsabilità giuridica degli organi dello Stato, precedentemente attuata attraverso misure di tutela extrafamiliari (*Out OF Home Care*), intervenute a seguito di condizioni di pregiudizio potenzialmente traumatiche

Tipologie di tutela extrafamiliare (OOHC)

- **Affidamento endo o etero familiare**

(Home-based care with foster or kin care)

- **Casa famiglia**

(Family group homes)

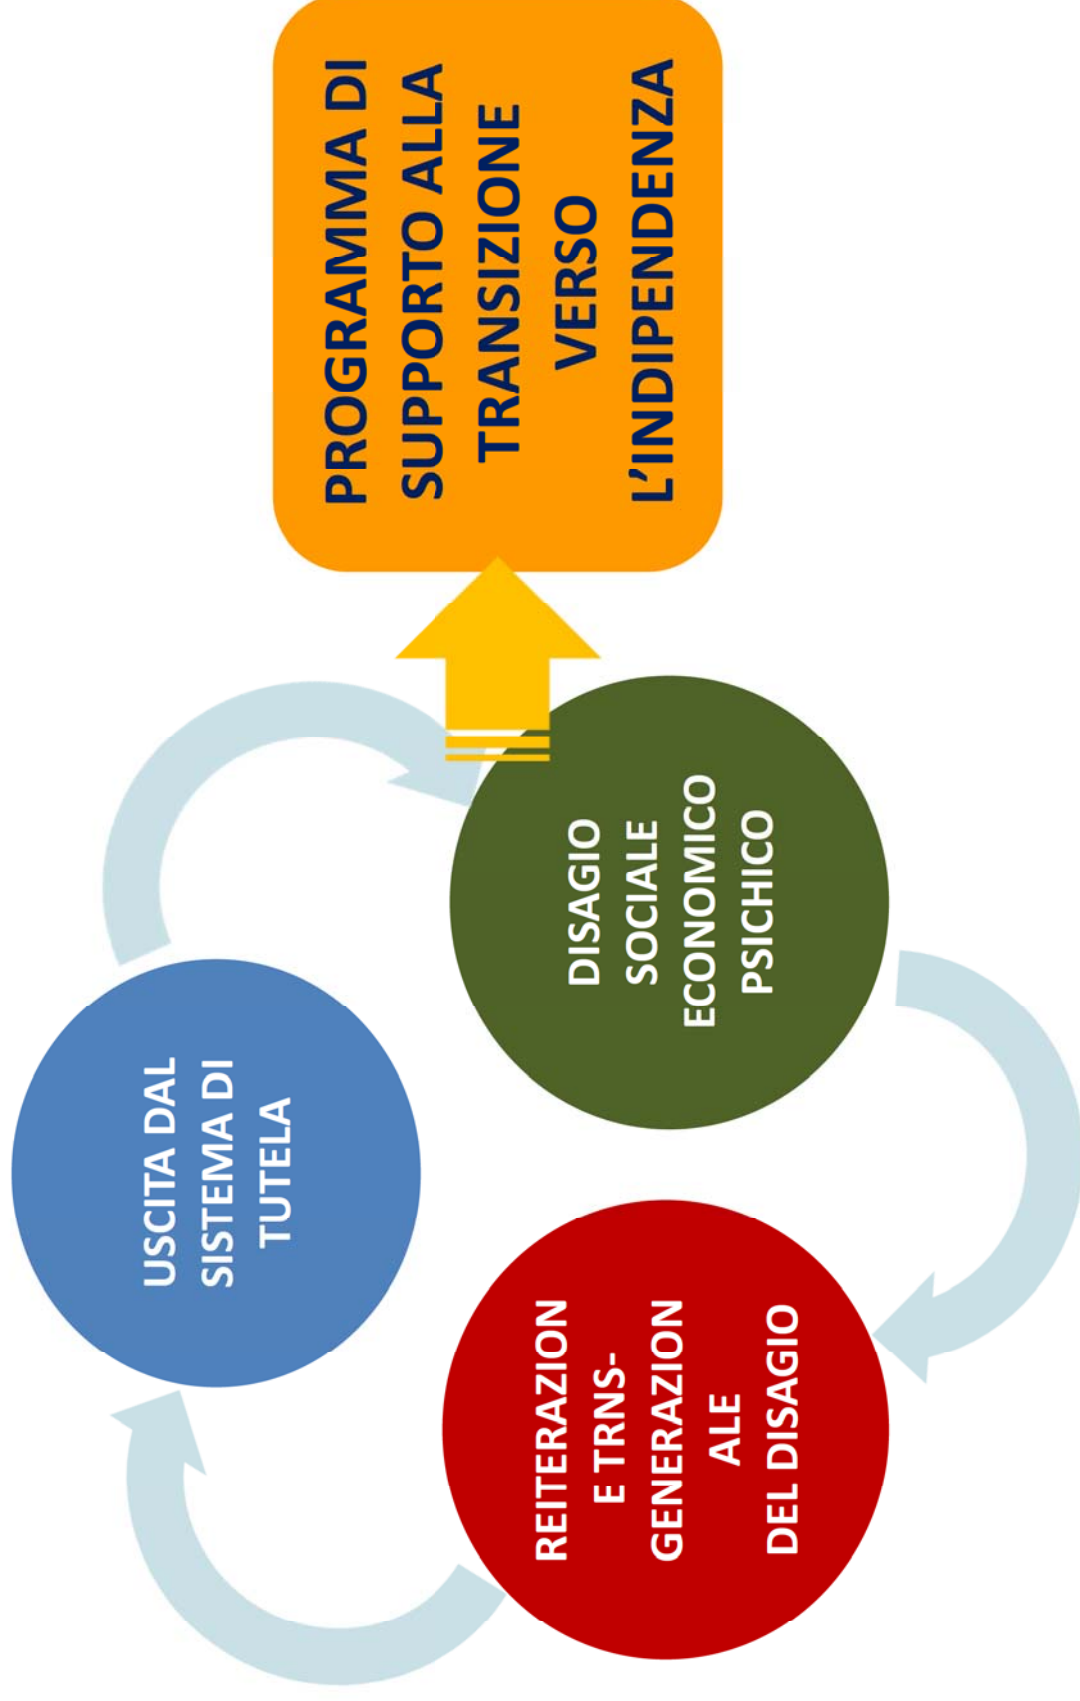

- **Istituto** (chiusi in Italia dal 31.12.2006 per effetto della L. 149/2001)

(Residential)

- **Sistemazioni di vita semi-indipendente**

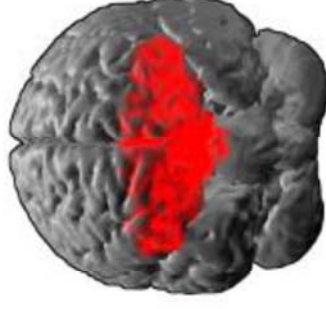

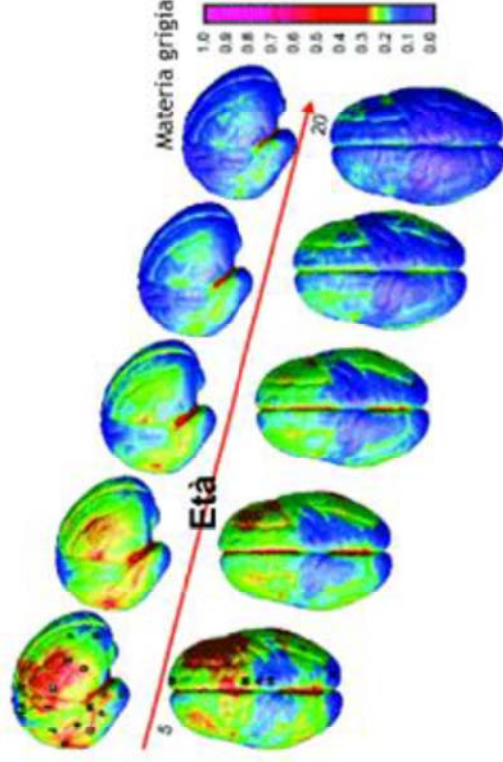

Independent living

Rischi connessi al care leaving

«ADULTITA' EMERGENTE»

(Emerging Adulthood)

Area 11 di Brodmann

Sviluppo della corteccia prefrontale:

- controllo degli impulsi
- calibrazione del rischio e della ricompensa
- regolazione emotiva
- proiezione di sé nel futuro
- pensiero strategico
- stabilire le priorità
- strategizzare e valutare le conseguenze delle decisioni

FATTORI DI VULNERABILITÀ

nei care leavers

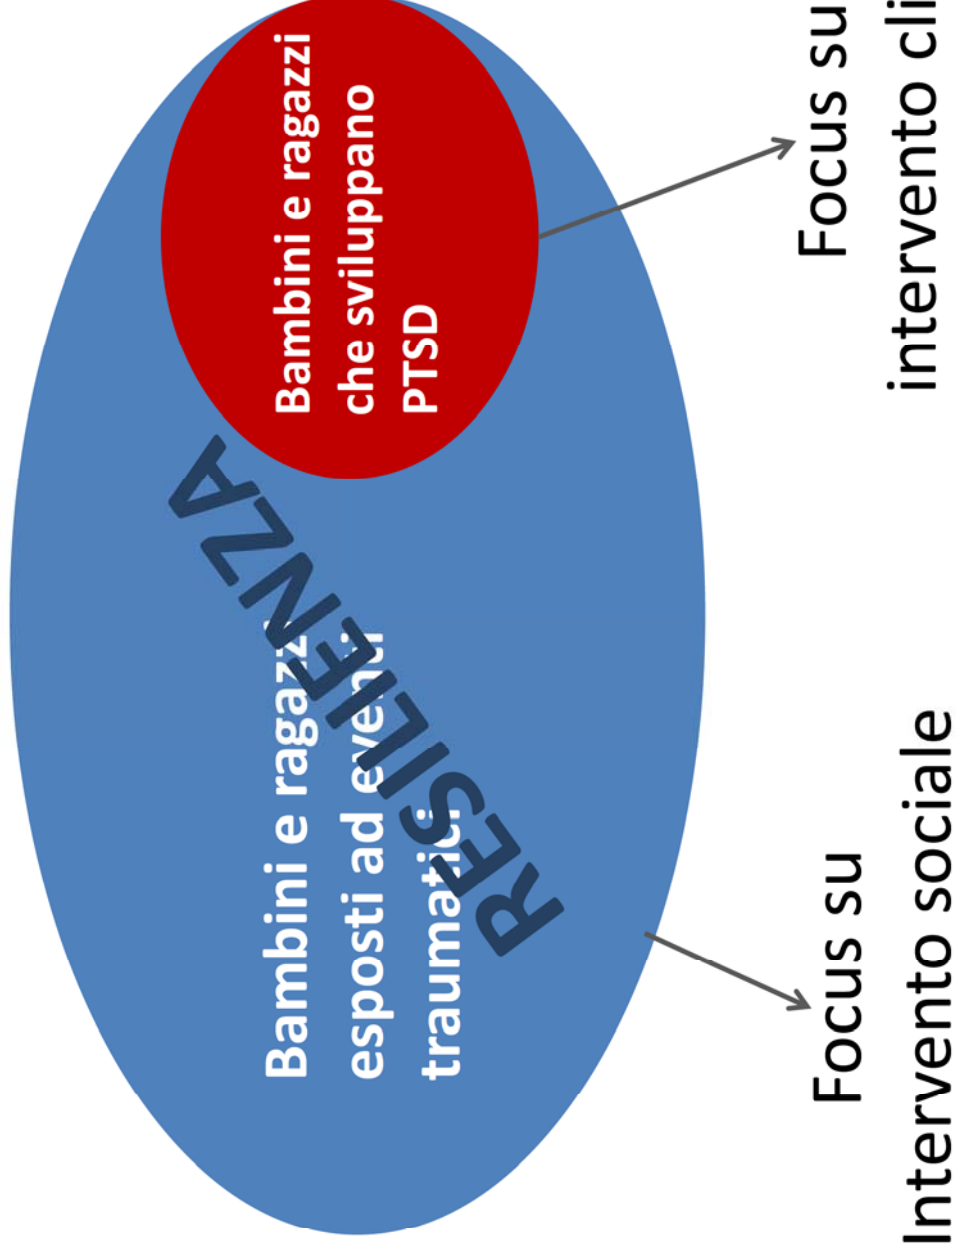

Esposizione precoce a:

- Vittimizzazione traumatica
- Abuso prenatale di alcol e/o sostanze
- Violenza familiare
- Abbandono morale e/o materiale

- Ritardo cognitivo
- Ritardo linguistico
- Compromissione dell'intelligenza emotiva
- Ipersensibilità alla rabbia
- Compromissione di funzioni esecutive correlate al capacità di pianificare e organizzare
- Disregolazione degli impulsi

ESPOSIZIONE TRAUMATICA E TRAUMATIZZAZIONE

FATTORI DI RISCHIO NELLA TRANSIZIONE ADOLESCENZA-ADULTITÀ

- Carenze familiari
- Disabilità personali
- Ristrettezze economiche
- Carenze abitative

«social capital deficits»
(Avery & Freundlich, 2009)

ESISTI CRITICI

dell'uscita dal circuito di tutela

senza tetto o instabilità abitativa
(Flatau et al., 2015)

Disoccupazione
(Mendes, 2009)

Criminalità giovanile
(Mendes et al., 2014)

Bassa istruzione
(Rogers, 2015)

Genitorialità precoce
(Fairharst et al., 2016)

Malattia mentale
(Rahamin, Mendes, 2015)

Abuso di sostanze
(Johnson et al., 2015)

POSSIBILE INEFFICACIA O IATROGENESI DELLA TUTELA

Le ricerche rilevano che
il perdurare o
l'instabilità del
collocamento
residenziale non
favorisce la risoluzione:

- né della vulnerabilità sociale
- né dei rischi di ritraumatizzazione

Il care leaving
deve essere:

- **Flessibile** (in base ai bisogni)
- **Graduale** (fino ai 25 anni)
- **Ben programmata** (sui diversi piani di criticità)

FASI CRITICHE DEL CARE LEAVING

(Mc Dowall, 2009)

1. Preparazione

Dovrebbe essere avviata a 15 anni

2. Transizione

Dovrebbe avvenire al raggiungimento di una stabilità abitativa e finanziaria

3. Indipendenza

Richiederebbe una «genitorialità diffusa» (corporate parenthood – Mendes et al., 2011)

LA PERCEZIONE DEI SERVIZI DA PARTE DEI CARE LEAVERS

- Funzionano male
- Non tratteranno i ragazzi con rispetto
- Non risponderanno efficacemente ai nostri bisogni
- Andare lì a chiedere aiuto risulterà imbarazzante e umiliante

meglio risolvere i problemi da soli!
(pseudoautonomia)

Consumer Focus (2011). Care leavers' perspectives on public services: Exploring the drivers and barriers for care leavers using public services in England. London.

PROBLEMATICHE DEI CARE LEAVER

E POSSIBILI SOLUZIONI – 1/4

Problematica	Soluzioni	Bibliografia
Trattamenti instabili o inadeguati che esacerbano il trauma e inibiscono la capacità dei ragazzi di stabilire legami di attaccamento sicuri e stabili	▪ Riduzione del numero di collocamenti ▪ Prese in carico specialistiche (Trauma-informed therapeutic residential care - TIC) ▪ Garantire rapporti con caregiver, famiglia, scuola e comunità	Cashmore & Paxman, 2007 Commissioner for Children and Young People. (2015). Craig et al., 2012 Dixon et al., 2015 Jones et al., 2011 McLean, 2016a, 2016b Whitaker et al., 2015

Problematica	Soluzioni	Bibliografia
Interruzione improvvisa della tutela di giovani non attrezzati per l'indipendenza	- Opzioni di dimissioni flessibili adattate al livello di sviluppo e di competenza e non basate sull'età cronologica, con possibilità di rientrare nella tutela se necessario Mentoring - Supporto emotivo, finanziario e terapeutico fino a 25 anni - Piani di indipendenza graduale ed assistita	Greeson & Thompson, 2014 McDowall, 2009, 2013 Mendes et al., 2014 Mendes, 2011, 2012 Rahamim and Mendes, 2014 Stein, 2012 Thompson et al., 2016

Problematica	Soluzione	Bibliografia
Scarsa preparazione o preparazione non specificamente indirizzata ai bisogni individuali del <i>care leaver</i>	- Tutti i care leaver necessitano di un programma individualizzato di supporto alla transizione verso l'indipendenza, nella cui elaborazione devono essere attivamente a partire dai 16 anni d'età. - I care leaver con bisogni supplementari (disabilità, ritardi dello sviluppo, disturbi mentali, genitorialità precoce) devono ricevere un supporto extra. - I minori stranieri necessitano di programmi specifici che affrontino le loro difficoltà culturali e linguistiche.	McDowall, 2008, 2009, 2013 Meade & Mendes, 2014 Rahamim, A., & Mendes, P. (2015). Mendes, P., Saunders, B., & Baidawi, S (2016). Snow, P., Mendes, P., & O'Donohue, D. (2014).

Problematica	Soluzione	Bibliografia
Sistemazione abitativa	Investimenti pubblici in favore della sistemazione abitativa dei <i>care leavers</i>. Programmi di transizione abitativa assistita, soprattutto per i <i>care leavers</i> con bisogni speciali supplementari, quali genitorialità precoce. Entro i 25 anni d'età, possibilità di rientro nel Sistema di tutela extrafamiliare in caso di fallimento della sistemazione abitativa.	Craig et al., 2012 Fairhurst et al., 2016 Mendes et al, 2011a Meade & Mendes, 2014 Johnson et al., 2010 Rogers, 2015

EMPOWERING PUBLIC AUTHORITIES AND PROFESSIONAL TOWARDS TRAUMA-INFORMED LEAVING CARE SUPPORT

INCREMENTO DELLE COMPETENZE DEI PROFESSIONISTI E DELLE AUTORITÀ PUBBLICHE NELL'AMBITO DEGLI APPROCCI RIVOLTI AL TRAUMA

Descrizione

Il progetto «CarePath: empowering public authorities and professionals towards trauma-informed leaving care support» è co-finanziato dall'European Union's Right, Equality and Citizenship Programme (REC 2014-2020). Lo scopo del progetto è quello di sviluppare un approccio integrato per la protezione dei minori di tutte le età anche al termine della presa in carico da parte dei servizi nell'UE, potenziando professionisti e autorità pubbliche nell'ambito degli approcci rivolti al trauma.

Obiettivi

- Individuare procedure e metodi di lavoro basati sul trauma all'interno di sistemi integrati di protezione dei minori e di supporto nella fase successiva al termine del processo di cura.
- Garantire la possibilità di accedere, alle persone di età minore che non sono più in carico ai servizi all'interno degli stati partner, a un adeguato supporto nella fase successiva al termine del processo di cura, come parte di un sistema integrato di protezione dei minori.
- Incrementare le capacità professionali per supportare i minori che hanno subito un trauma, coinvolgendoli direttamente nella scelta delle opzioni successive alle cure più adatte a loro.
- Sviluppare un meccanismo che garantisca alle autorità pubbliche e ai professionisti di implementare servizi integrati di supporto psicosociale per minori al termine delle cure, basati sugli interventi rivolti al trauma.

Attività

- Identificazione di metodi di lavoro trasferibili all'interno di sistemi integrati di protezione dei minori, rivolti al trauma.
- Sviluppo di programmi di formazione per professionisti che lavorano con persone di età minore traumatizzate.
- Test pilota del programma, rilascio della formazione per i formatori e dei seminari di formazione.
- Creazione di meccanismi che forniscano i servizi integrati del CarePath per minori traumatizzati al termine del percorso di cura.

Risultati attesi

- Miglioramento del supporto rivolto ai minori traumatizzati che si apprestano a terminare il percorso di cura.
- Miglioramento dei sistemi di protezione dei minori all'interno degli stati partner, promuovendo interventi one-stop rivolti al trauma.
- Miglioramento delle abilità professionali, sviluppando piani individualizzati volti al recupero dal trauma.

EQUIPE MULTYDISCIPLINARI E INTER-SERVIZI

Professionisti

- Psicologi e psicoterapeuti
- NPI
- Assistenti sociali
- Educatori
- Docenti di scuola superiore
- Mediatori linguistici e culturali

Consulenti esterni

- Ginecologi
- Pediatri
- Legali

Agencies/Services

- Servizi Sanitari (NPI, Cons. Fam.)
- Servizi Sociali
- Scuole medie e superiori (orientamento professionale)
- Centri di aggregazione giovanile
- Centri d'impiego
- Garante Infanzia
- Ufficio Minori c/o Questura
- ONG
- Ass. di famiglie volontarie

IL “CAREPATH TOOLKIT”

Qualche proposta

- Appartenere ad un'Equipe multidisciplinare e interservizi specializzata nel «**trauma-informed leaving care support**»
- **Formazione** su eziologia, epidemiologia e trattamento della vittimizzazione da maltrattamento in età evolutiva
- Tecniche e strumenti di **assessment** alla presa in carico, dimissioni e follow-up
- Tecniche di **trattamento** specifiche nei casi di traumatizzazione (*Critical Incident Stress Debriefing*, EMDR, ecc.)
- Sistema di **condivisione file**
- «**Manual di istruzioni**» per care leavers su carta e/o App
- Mappatura condivisa delle **risorse locali**
- «**Start up to autonomy training**»
- **Contact Center** dedicato ai care leaver
- ...

FATTORIA CASA DI NILLA

progetti di agricoltura sociale
per l'avvio al lavoro dei care leavers

CRITICITA' E CONCLUSIONI

focus sulla Calabria

- uno dei più alti tassi di **disoccupazione giovanile** in Italia
- no **integrazione** tra sistema sociale e sistema sanitario
- mancata promozione di **alternative family-care**
- assenza di **after-care host communities** per care leaver

Le future politiche sociali e buone prassi dovranno tenere in considerazione tutto questo

*«... Ciascuno di noi nasce con un
compito solitario da svolgere e
coloro che incontra lo aiutano a
compiarlo oppure glielo rendono
ancora più difficile ...»*
